Oh my dark angels we must part, For I've made a sanctuary of my heart

Bm Fm 2X420X Esus E
To want what I have to take what I'm given with grace,

Em7 Asus Intro
For this I pray on my wedding day

For my wedding I don't want violins,
Or sentimental songs about thick and thin,
I want a moment of silence, then a moment of prayer,
For the love we'll need to make it, in the world out there,
To want what I have, to take what I'm given with grace,
For this I pray, on my wedding day, On my wedding day

Bm G D
Well I dream and my dreams are all glowing light,

Asus G D
That's what I wanted for my life,

Bm G
And if it hasn't always been that way,
Esus Em Asus Intro

Well I can dream and I can pray on my wedding day

So what makes us any different from all the others,
Who have tried and failed before us, Maybe nothing, maybe nothing at all,
But I pray we're the lucky ones, I pray we'll never fall,
To want what we have, to take what we're given with grace,
These things I pray, on my wedding day, on my wedding day
