V1:                   G            G  
Dear insecurity Oh, we meet again,  
                  Em                    Em  
Don't try to flirt with me You're not really my friend,  
                  Am    D  
But you take up half this bed Livin' rent-free in my head

V2: Oh, insecurity You show up in my mirror,  
Point out the worst in me You whisper in my ear,  
That my lips are way too thin, Too many miles on my skin

Ch:            C    D  
If I can't find a way to get you gone  
G-                    D/F#-                    Em  
Can't we find a way to get along, along, along  
                  Am    D  
You're careless and you're cruel, and, oh, you're mindless  
G-                    D/F#-                    Em  
Maybe you could try a little kindness  
                  C    D  
Instead of hurtin' me

V3: Oh, insecurity, Now where did you come from?  
Your immaturity is the thing I can't outrun,  
You're a mean girl, you're a bully and I hope you're havin' fun

V4: Hey, insecurity You try on all my clothes,  
It just occurred to me That you may live in my phone,  
You tell me I don't fit in Push me close to quittin'
