Song For A Winter's Night

Gordon Lightfoot / Key: A (Luke:2, Paul:7) T=95

Intro: G--- Gsus G--- Gsus

```
      G            D/f#          Em            C  G              D      G     D
V1  The lamp is burning low upon my table top, the snow is softly falling
      G          D/f#            Em            C    G              D         G
    The air is still within the silence of my room,  I hear your voice softly calling
      G          D     C        D  Bm           Em      Am   D
    If I could only have you near to breathe a sigh or two
      G            D/f#          Em              C  G          D              F  C
    I would be happy just to hold the hands I love, on this winter night with you
```

V2 The smoke is rising in the shadows overhead,
my glass is almost empty,
I read again between the lines upon each page
the words of love you sent me,
If I could know within my heart
that you were lonely too,
I would be happy just to hold the hands I love
on this winter night with you

V3 The fire is dying now my lamp is growing dim,
the shades of night are liftin',
The morning light steals across my windowpane
where webs of snow are drifting
If I could only have you near
to breathe a sigh or two
I would be happy just to hold the hands I love
on this winter night with you
And to be once again with you

```
 Luke: V1 & melody in chorus
 Paul: V2 & harmony
Susie: V3 & harmony
